REQUESTOR'S POSITION SUMMARY

Requestor's Position Summary: "Since TDI moved to a 200% of MAR for outpatient services on 3/1/08 for hospital claims, we have reviewed the Medicare allowance and decided the insurance reimbursement does not meet this criteria. Medicare would have allowed this facility \$11,612.35 for the MAR at 200%. Based on their payment of \$6,564.10, a supplemental payment of \$5,154.93 is due."

Amount in Dispute: \$5,154.93

RESPONDENT'S POSITION SUMMARY

Respondent's Position Summary: The insurance carrier did not submit a response for consideration in this review.

FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and all applicable, adopted rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
2. 28 Texas Administrative Code §134.403, titled *Hospital Facility Fee Guideline – Outpatient*, sets out the reimbursement guidelines for facility services provided in an outpatient acute care hospital.
3. 28 Texas Administrative Code §134.203, titled *Medical Fee Guideline for Professional Services*, sets out the reimbursement guidelines for professional medical services.
4. The services in dispute were reduced/denied by the respondent with the following reason codes:
 - 1 – Charge exceeds fee schedule allowance – 222
 - 2 – Reimbursement is in accordance with the TDI Workers Compensation State Fee Schedule Adjustment and Guidelines. – 773

- 3 – Items and/or services are packaged into APC rate. Therefore there is no separate APC payment. – 785
- 4 – This item is an integral part of an emergency room visit or surgical procedure and is therefore included in the reimbursement for the facility/APC rate. – 881
- 97 – The benefit for this service is included in the payment/allowance for another service/procedure that has already been adjudicated. – ANSI97
- W1 – Workers Compensation State Fee Schedule Adjustment. – ANSIW1
- 193 – Original payment decision is being maintained. Upon review, it was determined that this claim was processed properly. – ANSI193

Issues

1. Are the disputed services subject to a contractual agreement between the parties to this dispute?
2. What is the applicable rule for determining reimbursement for the disputed services?
3. What is the recommended payment amount for the services in dispute?
4. Is the requestor entitled to reimbursement?

Findings

1. Review of the submitted documentation finds no information to support that the disputed services are subject to a contractual agreement between the parties to this dispute.
2. This dispute relates to facility services performed in an outpatient hospital setting with reimbursement subject to the provisions of 28 Texas Administrative Code §134.403, which requires that the reimbursement calculation used for establishing the maximum allowable reimbursement (MAR) shall be the Medicare facility specific amount, including outlier payment amounts, determined by applying the most recently adopted and effective Medicare Outpatient Prospective Payment System (OPPS) reimbursement formula and factors as published annually in the Federal Register with the application of minimal modifications as set forth in the rule. Per §134.403(f)(1), the sum of the Medicare facility specific reimbursement amount and any applicable outlier payment amount shall be multiplied by 200 percent, unless a facility or surgical implant provider requests separate reimbursement of implantables. Review of the submitted documentation finds that separate reimbursement for implantables was not requested.
3. Under the Medicare Outpatient Prospective Payment System (OPPS), each billed service is assigned an Ambulatory Payment Classification (APC) based on the procedure code used, the supporting documentation and the other services that appear on the bill. A payment rate is established for each APC. Depending on the services provided, hospitals may be paid for more than one APC per encounter. Payment for ancillary and supportive items and services, including services that are billed without procedure codes, is packaged into payment for the primary service. A full list of APCs is published quarterly in the OPPS final rules which are publicly available through the Centers for Medicare and Medicaid Services (CMS) website. Reimbursement for the disputed services is calculated as follows:
 - Procedure code 36415 has a status indicator of A, which denotes services paid under a fee schedule or payment system other than OPPS. Per 28 Texas Administrative Code §134.403(h), for outpatient services for which Medicare reimburses using fee schedules other than OPPS, reimbursement is made using the applicable Division fee guideline in effect for that service on the date the service was provided. Facility payment for the technical component of this service is calculated according to the Medical Fee Guideline for Professional Services, §134.203(e)(1). The fee listed for this code in the Medicare Clinical Fee Schedule is \$3.00. This amount multiplied by 2 units is \$6.00. 125% of this amount is \$7.50. The recommended payment is \$7.50.
 - Procedure code 85025 has a status indicator of A, which denotes services paid under a fee schedule or payment system other than OPPS. Per 28 Texas Administrative Code §134.403(h), for outpatient services for which Medicare reimburses using fee schedules other than OPPS, reimbursement is made using the applicable Division fee guideline in effect for that service on the date the service was provided. Facility payment for the technical component of this service is calculated according to the Medical Fee Guideline for Professional Services, §134.203(e)(1). The fee listed for this code in the Medicare Clinical Fee Schedule is \$10.94. 125% of this amount is \$13.68. The recommended payment is \$13.68.
 - Procedure code 29824 has a status indicator of T, which denotes a significant procedure subject to multiple-procedure discounting. The highest paying status T procedure is paid at 100%; all others are paid at 50%. This procedure is paid at 50%. This service is classified under APC 0041, which, per OPPS Addendum A, has a payment rate of \$2,064.02. This amount multiplied by 60% yields an unadjusted labor-related amount of \$1,238.41. This amount multiplied by the annual wage index for this facility of 0.9561 yields an adjusted labor-related amount of \$1,184.04. The non-labor related portion is 40% of the APC rate or \$825.61. The sum of the labor and non-labor related amounts is \$2,009.65. Per Medicare Claims Processing Manual, CMS Publication 100-04, Chapter 4, §10.7.1, if a claim has more than one surgical service line with a status

indicator of S or T and any of those lines has a charge of less than \$1.01, then the charges for all S and T lines are summed and the charges are divided across those lines in proportion to their APC payment rate. The new charge amount is used in place of the submitted charge amount in the line-item outlier calculation. This claim has a status indicator S or T line item with a billed charge less than \$1.01; therefore, all S and T line charges are reallocated accordingly. The APC payment for this service of \$1,004.83 divided by the sum of all S and T APC payments of \$5,284.87 gives an APC payment ratio for this line of 0.190133, multiplied by the sum of all S and T line charges of \$4,851.50, yields a new charge amount of \$922.43 for the purpose of outlier calculation. The cost of this service does not exceed the annual fixed-dollar threshold of \$2,025. The outlier payment amount is \$0. The total APC payment for this service, including multiple-procedure discount, is \$1,004.83. This amount multiplied by 200% yields a MAR of \$2,009.66.

- Procedure code 29807 has a status indicator of T, which denotes a significant procedure subject to multiple-procedure discounting. The highest paying status T procedure is paid at 100%; all others are paid at 50%. This procedure is paid at 100%. This service is classified under APC 0042, which, per OPPS Addendum A, has a payment rate of \$3,336.55. This amount multiplied by 60% yields an unadjusted labor-related amount of \$2,001.93. This amount multiplied by the annual wage index for this facility of 0.9561 yields an adjusted labor-related amount of \$1,914.05. The non-labor related portion is 40% of the APC rate or \$1,334.62. The sum of the labor and non-labor related amounts is \$3,248.67. Per Medicare Claims Processing Manual, CMS Publication 100-04, Chapter 4, §10.7.1, if a claim has more than one surgical service line with a status indicator of S or T and any of those lines has a charge of less than \$1.01, then the charges for all S and T lines are summed and the charges are divided across those lines in proportion to their APC payment rate. The cost of this service does not exceed the annual fixed-dollar threshold of \$2,025. The outlier payment amount is \$0. The total APC payment for this service is \$3,248.67. This amount multiplied by 200% yields a MAR of \$6,497.34.
- Procedure code J0360 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
- Procedure code J1100 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
- Procedure code J1170 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
- Procedure code J1200 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
- Procedure code J1885 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
- Procedure code J2001 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
- Procedure code J2250 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.

- Procedure code J2405 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code J2765 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code J3010 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code J7120 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code 93005 has a status indicator of S, which denotes a significant procedure, not subject to multiple-procedure discounting, paid under OPPS with separate APC payment. This service is classified under APC 0099, which, per OPPS Addendum A, has a payment rate of \$27.26. This amount multiplied by 60% yields an unadjusted labor-related amount of \$16.36. This amount multiplied by the annual wage index for this facility of 0.9561 yields an adjusted labor-related amount of \$15.64. The non-labor related portion is 40% of the APC rate or \$10.90. The sum of the labor and non-labor related amounts is \$26.54. Per Medicare Claims Processing Manual, CMS Publication 100-04, Chapter 4, §10.7.1, if a claim has more than one surgical service line with a status indicator of S or T and any of those lines has a charge of less than \$1.01, then the charges for all S and T lines are summed and the charges are divided across those lines in proportion to their APC payment rate. The new charge amount is used in place of the submitted charge amount in the line-item outlier calculation. This claim has a status indicator S or T line item with a billed charge less than \$1.01; therefore, all S and T line charges are reallocated accordingly. The APC payment for this service of \$26.54 divided by the sum of all S and T APC payments of \$5,284.87 gives an APC payment ratio for this line of 0.005022, multiplied by the sum of all S and T line charges of \$4,851.50, yields a new charge amount of \$24.36 for the purpose of outlier calculation. The cost of this service does not exceed the annual fixed-dollar threshold of \$2,025. The outlier payment amount is \$0. The total APC payment for this service is \$26.54. This amount multiplied by 200% yields a MAR of \$53.08.
4. The total allowable reimbursement for the services in dispute is \$10,590.92. This amount less the amount previously paid by the insurance carrier of \$6,564.10 leaves an amount due to the requestor of \$4,026.82. This amount is recommended.

Conclusion

For the reasons stated above, the Division finds that the requestor has established that additional reimbursement is due. As a result, the amount ordered is \$4,026.82.

ORDER

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code Sections 413.031 and 413.019 (if applicable), the Division has determined that the requestor is entitled to additional reimbursement for the services involved in this dispute. The Division hereby **ORDERS** the respondent to remit to the requestor the amount of \$4,026.82, plus applicable accrued interest per 28 Texas Administrative Code §134.130, due within 30 days of receipt of this order.
